OPIUM CASE ON TRIAL

MR. LOWDEN DISCHARGED AND
MR. MORRIS HELD.

Facts Already Known Related—Eight
Boxes of Crackers that Were
Barely Wanted.

In the District Court this morning Wai Man was tried for robbery, the prosecutor admitting at the outset that only \$120 was taken from him. Defendant was discharged, as four alleged accomplices had been on Friday.

Five single cases went over to future dates, also those of seven of the captives of a raid on a fantau game at Paoa. Three out of the ten captured pleaded guilty and their sentences were deferred till the 8th inst.

S. Lowden and A. L. Morris were called up for smuggling opium. A nolle prosequi was entered in the case of Mr. Lowden. An objection to the charge was noted on the ground of undue alleging of defendant A. L. Morris "guilty" before he is so proven.

F. B. McStocker, Deputy Collector General of Customs, was the first witness. He testified to the entry of goods from the steamer Mount Lebanon, from Portland and Victoria, to the Washington Feed Co. by S. Lowden. Other facts elicited are already known.

Port Surveyor Geo. C. Stratemeyer, Inspector Manoka and Storekeeper J. J. Kelly gave evidence of the seizure of opium not directly implicating defendant. Inspector W. H. Storey, however, told of defendant's having pressed him to deliver eight boxes of crackers for Waterhouse before the permit was presented or the goods were examined. Defendant said Waterhouse was kicking. This was on Monday, the day before the seizure. Defendant came again for Waterhouse's crackers Tuesday morning and said, "They're kicking." He told defendant he could get the goods if Schmieden let him. In cross-examination, witness admitted conversation with defendant yesterday, when he voluntarily said to him, "I don't think they can do anything to you." The lived in the same cottage.

The trial was adjourned at noon till Monday.

Lectures to Ladies.
On Monday afternoon in the Y. M. C. A. Hall, Dr. Emily B. Ryder is to deliver a lecture to the ladies of the city, entitled, "How Not to be Ill." This lecture is to be followed by a series of lectures on hygienic subjects. Dr. Ryder's lectures are reputed to be eminently on practical lines and on subjects that interest all ladies. Technical and scientific terms are avoided, so that all may be fully able to follow them. In the Australasian cities these lectures have attracted large and enthusiastic audiences of ladies, the high moral tone of the lectures being universally acknowledged, and as the Dr.'s testimonials extend round the globe, she is likely to be appreciated by the ladies here, for health is a subject in which all are interested. The fact that these lectures are given to carry on work for the child wives of India will add double interest. Admission to the lecture on Monday will be free.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G. & F. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler, \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

E. O. Hall & Son
LIMITED.

Accident.

James Campbell, a boiler maker of the Honolulu Iron Works, sustained a severe accident on the marine railway yesterday. He was working at the insertion of the new plates, when a staging of the steamer's painters fell on him. His body was badly bruised. Mr. Lyle, superintendent of the railway, temporarily dressed his injuries with curatives and bandages, after which Mr. Lyle, foreman of the boiler makers, drove the injured man to Dr. Russell's house for examination. No bones were broken but it was feared there might be internal injuries. Mr. Lyle wants to praise the preliminary treatment by the superintendent and the promptness with which it was bestowed.
